Attn : Mrs Naomi Ripert/Cuckfield Parish Council
From : Andrew Baurer

2nd June 2024

Following my email of 13th May I now have pleasure in enclosing our formal written quotation. When assessing the posts I grade them into four categories as follows: in need of replacement; in need of refurbishment in the workshop; basic maintenance; and no work required/recommended. We now also offer an ongoing maintenance programme so it is possible that some work could be deferred into subsequent years should this suit the parish's budgetary requirements.

All work is carried out in accordance with the specifications agreed with the Highways Dept and their main contractor, the main points of which are set out below and in the attached specification sheet :-

Posts - 175mm (7'') square air dried seasoned oak for the post with cast metal cap, secured with stainless steel screws.

Post Base – fixed 90cm deep into the ground and secured with a stone chipping & ash ballast mix.

Fingers - We will use either 190 or 280 x 30mm iroko hardwood for the fingers.

Letters - 3mm acrylic 62mm high screwed with stainless steel screws (these don't rust and make it easy to remove the letters when required at a later stage for maintenance).

Paintwork - All surfaces are sealed with three coats of a suitable wood primer and paintwork will have three coats of (Sadolin Superdec) white satin, which is a water based wood protection. This applies to both new posts as well as all refurbished posts.

Plaques - We can also supply brass finish acrylic laminated plaques engraved with a sponsor's message. For a plaque 80 x 50mm these cost £12.50 each, larger sizes can be supplied.

Post Protectors – these can be fitted to protect the base of the post against damage caused by strimmers.

Future Maintenance – We can now offer an ongoing annual maintenance programme

comprising a wipe down and clean of the post, retouching of damaged timber and metal paintwork and repair/replacement of letters (new letters fitted at £1.40 each).

Insurance – We have the requisite £10 million public liability insurance required for work on the Highway. A copy of this policy is available on request. We are also New Roads and Streetworks accredited.

Post junc B2184/Broad Street Cuckfield –

New 10ft 7” x 7” seasoned oak post, set in an ash/ballast base	480.00
Refurbished Post Cap	45.00
New large fingers @ 115.00	115.00
New medium finger @ 100.00	100.00
New letters 40 @ 1.40	56.00
Post Protector	75.00
Removal/disposal of old post	45.00
Digging out new post hole 40 x 40 x 90cm	<u>60.00</u>

Total £976.00

At present any work undertaken would be approximately 6/8 weeks from date of order confirmation. All prices include fitting and are **plus VAT** at the prevailing rate.

We were originally primarily an outdoor furniture business supplying memorial benches to Westminster City Council and Eastbourne Borough Council and as well as supplying new benches we have now extended our service to include the refurbishment of existing hardwood benches. This we can do to a generally very high standard.

We are also active in the manufacture of hardwood gates and have also previously supplied two styles of softwood gate to Wealden Council and have made large hardwood plant boxes for the town centre in Hastings.

New additions

Waymarkers

Footpath Markers

Bus Shelters – a range of hardwood clad galvanised steel frame shelters is coming soon.
Please contact us if you require further information.

Further information can be obtained on our website at www.jakkuk.co.uk

I look forward to being of service and should anyone be interested in visiting our workshop I would be very pleased to meet with them.

Yours sincerely
For Jakk Country Furniture Designs Ltd
