Subject: Bunkers field

Hi Sam

Hope your are well?

Most of the fence post in the field are rotten. My plan is the take out most of them in the summer and replace them with new one and tidy the fencing up a bit so it look smart.

Their will be no cost to you as your kindly letting me keep sheep there.

I have spoken to Ed at the bunker and he is keen for the sheep to be there to keep the grass around the bunker down as it will save you a cost mowing the field.

I hope this be okay but please let me know what you think.

I have copy Alex into this as I did speak to him about fencing what I written in this email.

Many Thanks
Bradley
