Subject: Fw: broken glass

JJ Glass have come in with the first quote for window replacements at CVH.

It seems pretty reasonable and the guy (same one that did the repair work at the QH recently) was very thorough.

He has also quoted for doing the work on a Saturday which would likely be the best option; however that's almost double the cost (£2,290 vs £1,360)...

Subject: broken glass

Hi Paul

I have got the sizes back from my fitter , he mentioned that the work may be needed to be done on a Saturday , so I have done 2 prices one for during normal working hours Mon-Fri and one for Saturday.
Cost to remove existing broken glass and supply and install new 6.4mm clear laminated safety glass
39No 530 x 270 approx sizes for sum of £29.00 each + vat = £1131 + vat = £1357.20 (Mon-Fri)
Alternative on a Saturday £49 each + vat =£1911 + vat = £2293.20

If you wish to proceed any further please let me know I would then get the glass cut and arrange for fitting.

Kind regards

Ian Taylor
